

## Enviresearch Summer Bursary Application Form

The full call text is available on the Enviresearch Foundation Website. Once complete, this application form should be no longer than **3 pages** using minimum size 10 font, not including the scoring matrix, additional information or blank pages.

---

### **Name(s) of Project Team PI**

Name, affiliation

### **Please comment on the relevance and practical applications of this research:**

Please state the intended purpose of the research

### **Please comment on the benefit of the research to the environment:**

This is an essential criterion so please state clearly with justification expected benefits and impact

---

### **Details of Proposed Activity**

#### **Title:**

#### **Summary:**

Include nature and purpose of research activity, timeliness & duration of research including any key dates; potential for publication, any detail on interdisciplinary working enabled by this research, and why the Enviresearch Foundation is best placed to fund this.

---

### **Funding Requested**

**Total Enviresearch Summer Bursary contribution requested: £** NB total fund is £10,000

**If this is part of a larger project, who else is funding this work and what is the total value of the larger project?**

---

### **Expected Outcomes and Deliverables**

Give details of what the activity will achieve and how this supports and adds value to the existing research being undertaken at Newcastle University. Please list and number your deliverables for reporting purposes. Consider how you will measure the success, and what opportunity there is for evidencing the impact of your activity. Examples of successful realisation of research impact and outcomes in the past are encouraged.

You should indicate the team member responsible for and contributing to each deliverable.

---

### **Milestones and Reporting**

List and number your project milestones and schedule for reporting (which will include at least a final report within 1 month of completion). A reporting template will be supplied.

Please include a brief expenditure profile indicating planned spending by month/year. This can be expressed as a chart or list of main spend with approximate dates.

---

## Additional Information

### How did you hear about this funding call?

Please tell us how you heard about this funding call e.g., Enviresearch Foundation website, email bulletin, word of mouth – colleague or Institute Team etc.

### Commercially Sensitive Information

Details of successful applications will be used in the Enviresearch Foundation promotional material. If your application contains commercially sensitive information which may **NOT** be used by the Enviresearch Foundation for promotional purposes then please tick this box

<i>Office Use only – Award Decision</i>	<i>YES/ NO</i>	<i>SCORE (%)</i>	<i>NOTES</i>
